SUMMARY

Multidisciplinary Designer & Full Stack Developer

I am a multidisciplinary designer and full stack developer with a strong focus on blending creative vision and technical expertise. I specialize in building visually compelling designs and functional web applications that create meaningful connections between brands and their audiences. I am committed to delivering solutions that emphasize simplicity, elegance, and impact.

Professional Experience

IT Specialist (OJT – 800 Hours)

ECE Contact Center

- Provided technical support and IT-related assistance in a fast-paced contact center environment
- Assisted in troubleshooting hardware, software, and network issues
- Maintained system performance and ensured smooth daily operations

Certifications & Training

Global Consumer Intelligence (GCI Global)

University of Tokyo – Matsuo-Iwasawa Laboratory

- Completed an intensive data science program covering Python, machine learning fundamentals, and real-world business applications
- Gained hands-on experience in data-driven problem solving and analytics
- Part of a globally recognized program with participants from 30+ countries and 430+ universities
